Coyote Family

Uncooled Thermal Weapon Sights and Pocket Scopes

General

ITL's Coyote family of uncooled thermal imagers enables use as either hand-held or weapon-mounted sights, for ranges between 0 to 1500 meters. The family incorporates several different configurations for providing the end user with the best fit to his operational requirements.

All the Coyote family members are characterized by compact design, light weight, crystal clear image and reliability, even under intense operation.

Coyote's excellent thermal sensitivity provides the operator with outstanding target discrimination and recognition capabilities regardless of light or weather conditions.

Main Features

- Crystal clear image
- Video capturing capabilities
- Optional IR/visible laser pointer
- Can be integrated with fire control systems
- Fits Picatinny-type weapon adapter
- Compact and ruggedized design
